

Botho & Gisela Heinz

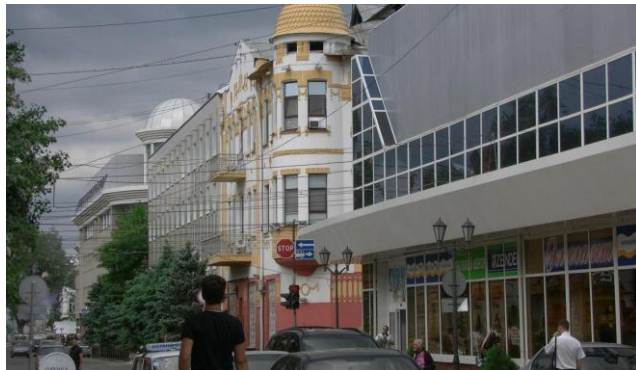

Dear Prayer Partner,

June 2010

Since we have sent our last prayer letter, Botho has been to Astrakhan near the Caspian Sea. His arrival was a total climatic shock! At home, we had about 40 degrees but in Astrakhan it was more than 80 degrees – and bad air because of the air pollution from gas production. His time of ministry there was very good. He has been back several times, but only for a day each time. He took the night train from Volgograd, taught during the day and went back by train the following night.

Astrakhan is an awakening town – construction everywhere! A lot of new houses are being built, but there are still the bad living quarters of the poorer people.

Botho went there again and stayed 12 days that time. On both Sundays, he preached at two churches and spoke at youth meetings. The young people asked many questions about the faith and some of the questions were very specific. About half of the youth have a non-Christian background.

Monday through Friday, a seminar was scheduled about the Book of Job. It was well accepted - reflected by the growing attendance (up to 50 persons).

On Saturday, Botho taught the Book of Daniel in 6 one-hour lessons. The most interesting thing about the Book of Daniel is the accuracy of its predictions. When Botho taught its content arranged chronologically and not by chapters, the influence of the invisible world became obvious to them. This made the people think!!! We are glad that brothers and sisters from at least four different churches and denominations attended. This is not common in Eastern Europe.

In addition to his teaching ministry:

Botho was able to visit The University of Design and The Law School where he answered the students' questions.

And more:

With the help of God, Botho gave spiritual help to many with one-to-one talks.

So, it was not surprising that Botho was asked when he will come back.

Right now, Botho and a volunteer missionary are giving reports to different churches about the Children Camps that will be conducted this summer in Ukraine with the financial help of Theological Teaching Service. Would you want to be a part of this? With \$30 you can give one child the opportunity to be part of a camp, to be nurtured physically and spiritually.

In August, these camps will be on Crimea and in Ortzinikidze / East Ukraine. Please pray for a safe and blessed time for everyone, especially Eduard Roehrich, the volunteer missionary who is in charge.

Also in August, a Summer Bible School will start in a Christian Retreat Home in Germany. Botho is in charge of the theological part of it.

We wish you a blessed summertime!

Yours,

Botho and Gisela Heinz
