**April 2009**

**Dear Brothers and Partners in Ministry,**

After a couple of months of a lot of activities in different areas, it's good to share the wonders that God is doing!

**Evangelism and Seminars**

With the help of Brother Rene Melgar (who we are teaching), we see how God has been made known. We have planned for the next months to go to Langua Valle, San Luis, Santa Barbara, Tegucigalpa and San Pedro Sula. I ask for your prayers for there will be meetings with several churches.

**Educational Area**

We started the year in the High School with some problems because of the economic and security crisis in our country. Parents couldn't enroll their kids, even with help given by friends of the institution. But, with God's help, we are trying to get out of this crisis with better opportunities for serving Him. Now, more than ever, we are convinced that our institutions are a group of seeds that are giving fruit for the benefit of families and society.

**Family**

We have had some health problems but, thanks to God, we are better. November to December was a time of different medical exams. The doctor was even thinking of colon cancer. But, He changed all those sad moments of my illness into something that wasn't so bad. I'll soon be 72 years old and I know God will give me more life for His holy service.

**Reasons for Prayers**

- 1) Continue the construction of our World Reach Office in Siguatepeque**
- 2) The MBI activities in Lange and Valle**
- 3) Evangelistic crusades and seminars**
- 4) All the institutions in this crisis time**
- 5) Good sound equipment**

We ask Almighty God to continue blessing you. Thanks for your help and support in our ministry.

Your Servants in Christ,

Chema and Dinora Sandoval
