

CHEMA AND DINORA SANDOVAL

Dear Brothers and Helpers in our Ministry,

May 2010

We want to share with you the times of happiness, sadness and victory that we have lived these days. In everything, we have seen the powerful hand of God!

Our Family

We received a sudden call from our oldest son, with tears but with a lot of trust in God. He told us that the doctor had detected thyroid cancer in our 15 year-old granddaughter; that they were in the process and they agreed with the results. But, the Almighty Doctor had another diagnosis.

At the moment of the surgery, our granddaughter smiled that dark evening, trusting that our Lord God had done a miracle. When her thyroids were removed, she was completely clean of cancer. The doctors on the fifth floor of the Medical Center were surprised. We praised God with our family, friends and classmates of our dear granddaughter that God had done this! Thanks, Brothers, for your prayers. We know you were praying for us!

Some days before our granddaughter's surgery, our house was robbed. Thanks to God, we only lost material things. We have not moved back into our home because it is being repaired. God has given us an apartment at the Bible Seminary and we have stayed there for some months.

Educational Area

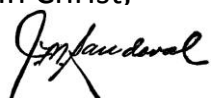

This year of 2010 has been one of the most difficult for our institution but, thanks to God, we are covering the economic necessities. It has also been a year of more young people accepting Christ - more than 130.

For Praying

- 1. Our evangelistic crusade in San Luis, Santa Barbara**
- 2. The students who have accepted Christ this year**
- 3. Economic help to cover studies for the poor students**

Thanks for helping our ministry. We appreciate you! Please continue praying for us because we live in a country that really needs God. May God Continue Blessing You!!!

In Christ,

Chema and Dinora Sandoval
